No CAO/NOVs. They don't have any other compliance issues that I am aware of.

Thanks,
Amy

Good morning Amy,

Working on a renewal of this permit. Reviewed DMR data and it appears that the city is in almost prefect compliance. One violation of NH3-N in April 2012.

I assume there is no CAO/NOV? Are there any other enforcement issues I need to address in the draft permit?

Thanks,

m
