RE: State Construction Permit No. AR0042846C, AFIN 41-00001
Termination of Construction Permit

Dear Mr. Jennings:

The Division has received correspondence from Rodney K. Breuer of ECCI dated March 19, 2021, and a Notice of Completion of Construction form dated April 20, 2021, stating that the construction approved under State Construction Permit No. AR0042846C has been completed. This notification was required by Condition No. 3 of the permit.

No further action is required by the permit. Since construction has been completed, AR0042846C will be voided. Ash Grove Cement Company will be required to obtain a new State Construction Permit if any further construction activities take place at the wastewater treatment plant.

If you have any questions, please contact Anmol Jain of the NPDES Discharge Permits Section at Anmol.Jain@adeq.state.ar.us or by phone at (501) 682-0026.

Sincerely,

A handwritten signature in black ink, appearing to read 'Alan J. York'.
