Re: NPDES Permit Number AR0042846, AFIN 41-00001
Date of Expiration: December 31, 2022

Dear Mr. Tomlinson:

The application for renewal of your NPDES permit was received on June 9, 2022. In accordance with 40 CFR 122.21 and APC&EC Rule 6, your application has been reviewed and determined to be incomplete. Please complete the following:

1. DEQ Form 1
 - a. Design and average flows must be listed in Section B.1 for each of the three outfalls.
 - b. The required 10K and 10Q were not received.
2. All of the Responsible Official's signatures appear to be typed script. This is not an acceptable form of an electronic signature.
3. Winter effluent temperature for each of the three outfalls must be submitted. If this information is not yet available, the application must reflect that the information will be submitted as soon as possible.

These forms must be completed and received by the Division no later than July 4, 2022. Failure to submit the required information will result in your application being placed in an inactive status. Please note that although the due date is a Federal Holiday, the due date does not roll over to the next business day.

Please be advised that a complete application must be received by July 4, 2022, for permit coverage to continue past the expiration date (12/31/2022) in accordance with 40 CFR 122.21(d) and APC&EC Rule 6. Consequently, failure to provide the information requested could result in an unpermitted discharge upon expiration of your current permit and subject you to enforcement action by the Division. Upon receipt of the information requested, your application will be determined to be complete, and processing of your renewal application will begin.

Thank you for your cooperation in this matter. If there are any questions concerning this submittal, please contact me at loretta.carstens@adeq.state.ar.us or at (501) 682-0612.

Sincerely,

Loretta Carstens, P.E., Engineer
