Dear Ms. Loretta Carstens P.E.,

Take the time to come visit the site to see the harm this wwtp will do to our community. This wwtp negatively affects private landowners that shouldn't have to give up their rights for one developers wishes. ADEQ is the agency to help protect our community from unbridled urban sprawl. Roland is a small rural community that does not want to be the disposal ground for these wast water treatment plants. Keep Arkansas Natural.

Sincerely,

Boyd K. Corley
