I am Frank Pullen, I have lived at 16001 Beaver Creek road for 40 years. On Friday, March 24th I took pictures of the proposed subdivision on Roland cutoff road one block away from my house. I have watched flooding over the cutoff road many times and including Beaver Creek road many times. This whole area is a watershed into Beaver swamp and mill bayou. Please consider these pics as evidence of the amounts of water that move through the proposed sewage treatment area. Common sense should prevail... Thank you.

Pictures ...5a and 7b are taken straight up the proposed area. The others are side areas trying to drain into the same area. Thank you for your consideration, this last one is the neighbor who borders the proposed development. My # is 501-804-2482 if you wish further contact
