Dear Ms. Carstens,

I request that ADEQ deny the permit being considered for the Paradise Valley sewage facility and I request a public hearing. The revised draft permit would allow pollution of a pristine wetlands area, Mill Bayou and its tributaries. The sewage facility would endanger drinking water, livestock, wildlife and the environment.

As previously stated, Mr Ferguson also maintains a wastewater treatment facility for Waterview Estates which has a history of violations. The wastewater treatment facility for this location is servicing roughly forty homes at this time. If Mr Ferguson is unable to keep this treatment plant up to acceptable standards, how are we to assume that he will do so with a facility that could potentially service over 300 homes? This development is a bad idea for Roland and the treatment plant is a potential hazard for the environment and neighboring residents of the proposed site.

Sincerely,
Jeff Jenkins
