**Subject:** Paradise Valley sewage facility

I oppose this sewage facility.

As an Arkansas citizen interested in maintaining water quality, I am opposed to the development and especially to the sewage treatment plans for the proposed development. Having read more about the situation, including examining the lawsuit to stop this development, I want to express my grave concerns that the developer appears to be seeking profit over the protection of our precious land, water, and wildlife resources.

Having lived in central Arkansas the first 45 years of my life, I have enjoyed the areas in question as a natural habitat, including the amazing creeks and waterways, forests, and wildlife.

Though I support responsible growth, and an increasing population will require additional housing, I do not believe our waterways and wildlife should suffer due to improper planning or other poor management practices.

It is especially distressing to learn that a similar development with a similar wastewater approach has resulted in multiple violations.

I strongly oppose this sewage facility.

Thank you,

Kris Katrosh
