Dear Mr. Khan,

I ask that the ADEQ to deny this permit and hold a public hearing. I've enjoyed seeing this beautiful countryside every fall when I come down to Little Rock for the Big Dam Bridge 100-mile bike ride. The other riders I was with, including those from around the county, also commented on the beauty of this area. I don't think this countryside and the waterways in particular can handle the levels of development and sewage effluent this project would produce and come anywhere close to maintaining it's idyllic nature. I hope I'm riding next to a beautiful country creek and not some stinking rotten water for years to come. The residents of Roland have had maintained a friendly and well stocked aid station for us riders for years. I'm certain many of them feel this same way and would appreciate a chance for additional comment. Thank you,
