Dear Mr. Khan,

I ask that ADEQ deny the permit for the sewage treatment facility for Paradise Valley and I also request a public hearing on this issue if/when that time comes. Mill Bayou is not an appropriate use as a sewage facility's pipe - in this location especially. The pollution risk for wildlife is just too great.

I also have concerns about the Native American burial grounds recently found close by. This is a hugely important archeological find and should not have construction going on so close by. At the very least, the construction and treatment facility projects should be put on hold until further research on their impact is done.

Thanks for your time,

Deborah Ahring
