Dear Mr. Khan,

I ask that ADEQ deny the permit for the sewage treatment facility for Paradise Valley and I also request a public hearing on this issue. Mill Bayou is a protected Water of the United States and a source of life-giving water for animals and people within the Mill Bayou Watershed and therefore is not an appropriate use as a sewage pipe which will poison our waters and threaten our health. This developer is should not be allowed to install yet another failed sewage facility in Roland on Mill Bayou and not especially when the developer has other options.

The Roland area is and should remain a safe environment for the people of Arkansas. We don't want to have a future in which we have to spend who knows how much money to fix the mess this facility will likely cause.

Sincerely,

Luigi Martone
