Subject: Discharge Permit Number AR 0053210; AFIN 60-05010

Attention: Faizan Khan, Permits Branch, Office of Water Quality, ADEQ

Dear Mr. Kahn,

We are opposed to the Paradise Valley sewage treatment facility on Roland Cutoff. We believe the treatment plant is an inappropriate use of Mill Bayou. It is our understanding that Mill Bayou floods frequently and will send the treated sewage into spaces it was not intended to be, where it could come into contact with people and animals. We ask that you consider the impact on people who own homes in the area and the potential damage to their lives as well as the damage to livestock and other animals. Therefore, we respectfully ask that the ADEQ deny the permit and hold a public hearing.

In the interest of protecting our environment, Martha and Larry Hiatt
