For over 20 years we have lived just a few miles away from the proposed Mill Creek 'build' site. I can't tell you how many times Roland Cut-Off had to be closed due to flooding over the roadway. This history alone should set the precedent for why, particularly, a sewage treatment facility should be nowhere near the vicinity. It's absurd and clearly an act of sheer greed to desire to cram as many houses into such a tiny space...that does NOT fit into the historical landscape whatsoever. I vehemently oppose the allowance of the building of such a facility. The community cannot absorb it without great costs to those already residing in the area.

Sincerely,  
Rhonda J Patton
