Dear Mr. Khan,

I ask that ADEQ deny the permit for the sewage treatment facility for Paradise Valley and I also request a public hearing on this issue. Mill Bayou is a protected Water of the United States and a source of life-giving water for animals and people within the Mill Bayou Watershed and therefore is not an appropriate use as a sewage pipe which will poison our waters and threaten our health. This developer is documented to be a "bad actor" with ADEQ and should not be allowed to install yet another failed sewage facility in Roland on Mill Bayou and not especially when the developer has other options.

The sewage treatment is too close to homes and sewage runoff will occur during rain and windstorms. Worst of all the bacteria will enter our drinking water in Lake Maumelle which is supposed to be protected here in the Natural State of Arkansas. There is no way this can keep from happening. Please get rid of this project of urban sprawl, where there is no urban.

Sincerely, Wendy Wade Bell
