Re: NPDES Permit Number AR0053210, State Construction Permit No. AR0053210C
AFIN 60-05010

Dear Mr. Ferguson:

The application for issuance of an NPDES permit and a State Construction Permit was received on September 2, 2020. In accordance with Division policy, your application has been reviewed and determined to be incomplete. Please complete the following:

1. ADEQ Form 1
 - a. The design flow must be listed in Section A.14.
 - b. Section B.5 must list how the samples are taken, not where.
 - c. Section B.7 should include an estimate of the population, not just the number of homes.
 - d. Section H requires submittal of design calculations, plans, and specifications which have been signed and stamped by a P.E. registered in the State of Arkansas. The Division understands that the proposed WWTP was previously used at another facility. However, it must still undergo the same review process as other WWTP. If the documents were not created by the consulting engineer, they may sign and stamp a statement saying that they have reviewed the documents and that the documents are in accordance with good engineering practices, etc.
2. EPA Form 2E must be completed and submitted.
3. A map or aerial photograph showing the distance between the boundary of the subdivision and the Little Rock city limits must be submitted.

These forms must be completed and received by the Department no later than fourteen (14) days from the date of this letter. Failure to submit the required information will result in your application being placed in an inactive status. Upon receipt of the information requested, your application will be determined to be complete, and processing of your issuance application will begin.

Thank you for your cooperation in this matter. If there are any questions concerning this submittal, please contact Faizan Khan by email at Faizan.Khan@adeq.state.ar.us or at (501) 682-682-0670.

Sincerely,

A handwritten signature in blue ink that reads 'Loretta Carstens'.

Loretta Carstens, P.E., Engineer
