So they finally got back to me. They say the correct mailing address should be:

PO BOX 23670
Little Rock Arkansas 72221

Do you want me to go ahead and update it in Access for both AR0053210 and AR0053210C?

Sure, I've reached out to their consulting engineer to get a better address. Will give you an update once I have it.

Faizan,

We continue to get returned mail for them. Have you been in contact with them recently? Anyone who could update the mailing address or explain why it keeps getting returned?
