Thanks, Doug. That should be it for the construction permit for now. For the discharge permit, I sent an email earlier today regarding the number of connections the facility will have. That should get us on track with everything.

Doug,

We actually just received the proof of publication and payment for the construction permit from the newspaper, so you don't need to worry about obtaining this confirmation.

Doug,

Apologies for not getting back sooner. We did not receive any comments during the public notice period. I'm currently waiting on proof of publication and proof of payment for the public notice from the Arkansas Democrat Gazette, where the notice was published on April 11. Besides that, I don't suspect it should take much longer for final issuance of the permit.

Faizan:

I believe the public comment period is complete on the Construction Permit. Do you know of any issues and when the construction permit might be issued?

Subject: AR0053210 - Number of Connections
Attachments: Summary of Connections example.pdf

Doug,

During the draft discharge permit review for Paradise Subdivision, a question regarding the number of connections came up. I couldn't find a specific number in the permit application. I've included an example of a summary of connections page from another subdivision for reference. Could you provide something similar, or at least an estimated total number of connections for the facility?

I should also note our records don't show a facility name change request from Saddle Ranch to Paradise Subdivision yet. Let me know if you have sent it already or you can send it to me directly via this email if convenient.

Thanks,
