RE: Removal of Outfall 002A (ARG160003 AFIN 72-00144)

Dear Mr. Dunbar:

The Department is in receipt of the correspondence requesting the removal of outfall 002A for the Waste Management, Tontitown Class I Landfill in Tontitown, AR. Upon review of the request the Department has removed the outfall from the monitoring information due to the expansion of the landfill rerouting the flow off of the active cells through outfall 001A. Please update any on-site facility records/plans to indicate that the remaining outfalls are 001A & 003A

If you have any questions concerning this matter, please feel free to contact me at (501) 682-0627, or E-mail me at [harmonj@adeq.state.ar.us](mailto:harmonj@adeq.state.ar.us).

Respectfully submitted,

Jennifer Harmon, E.I.

Re: Removal of Outfall 002A  
Waste Management, Tontitown Landfill  
Springdale, Arkansas  
Terracon Project No. 35087022

Dear Ms. Harmon:

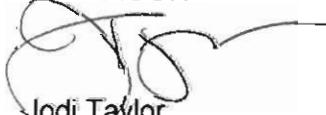

The Waste Management, Tontitown Class I Landfill is currently constructing landfill cells 1, 2 and 3 in accordance with their recently approved Arkansas Department of Environmental Quality (ADEQ) solid waste permit. This modification eliminated the East Pond and the associated National Pollutant Discharge Elimination System (NPDES) permitted Outfall 002A, located at the east site boundary. Based on this information, Waste Management is sending notification to ADEQ that surface water flow will be redirected as a result landfill expansion, and Outfall 002A is not longer present at the site.

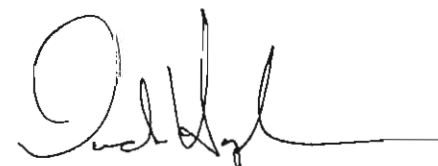

As a result of the lateral landfill expansion, the surface water flow will be augmented by a series of drainage ways around the expanded landfill. Water will drain to the South Pond, where it will discharge through Outfall 001A to Little Wildcat Creek. Figure 2 is included as an attachment to demonstrate current surface water flow and outfall locations.

Waste Management and Terracon appreciate your time and consideration in this matter. If you should have questions or require additional information, please do not hesitate to contact us at 501-455-2199 or [jataylor@terracon.com](mailto:jataylor@terracon.com).

Sincerely,

TERRACON
