Dear Mr. Cheri:

This letter is to give notice that the Office of Water Quality of the Arkansas Department of Environmental Quality (ADEQ) has issued a draft permit decision for the renewal of National Pollutant Discharge Elimination System (NPDES) General Permit ARG590000. This general permit is for the construction and operation of a Concentrated Animal Feeding Operation as defined in Part 10 of the permit, except those facilities which are excluded in Part 1.4 of the general permit, located within the State of Arkansas.

While this is a statewide permit, to date only one facility has obtained coverage under this permit. This facility is C & H Hog Farms, which is a large CAFO located within the Buffalo River Watershed.

The enclosed public notice was published on March 15, 2016 in the Arkansas Democrat Gazette. A public hearing and meeting will be held on April 14, 2016. The attached public notice provides all necessary information as it relates to the application.

If after review of the attached public notice there are any questions concerning this submittal, please contact Katherine McWilliams of my staff at (501) 682-0651 or by email at mcwilliamsk@adeq.state.ar.us.

Sincerely,
