Notification of Renewal of NPDES General Permit Number ARG590000 for Eligible Operators of Concentrated Animal Feeding Operations (CAFOs) within the State of Arkansas
This is to give notice in accordance with A.C.A § 8-4-203 that the Permits Branch of the Water Division of the Arkansas Department of Environmental Quality (ADEQ), 5301 Northshore Drive, North Little Rock, Arkansas 72118-5317 at telephone number (501) 682-0623, has made a decision to renew the National Pollutant Discharge Elimination System (NPDES) General Permit for construction and operation of Concentrated Animal Feeding Operations (CAFOs), which is set to expire on October 31, 2016. Coverage under this permit authorizes the land application of manure, litter, or process wastewater in accordance with a nutrient management plan. A nutrient management plan, which is required to be prepared for each CAFO, provides site-specific requirements for waste management and land application of nutrients. This NPDES CAFO general permit also authorizes a discharge only when a precipitation meets or exceeds a 25-year, 24-hour rainfall event.
Once the draft renewal permit is ready, it will be publicly noticed in the Arkansas Democrat Gazette for a 30-day comment period to receive comments from the citizens and current facilities with permit coverage.
Becky W. Keogh, Director
