To anyone that has concern:

Please do not let C&H modify their permit. Field 7 is TOO CLOSE TO THE SCHOOL. Children don't need to be exposed to Hydrogen Sulfide, Ammonia, toxic airborne Particulates, Urine, Methane, etc. etc.

It's a disgrace that this Hog-Mill has been allowed to open and operate in the first place. Do not complicate this travesty any further by giving any more favors to C&H.

A.J. Smith, Mt. Judea, AR
