Questions_Comments:

Please do what you can to shut down the C&H hog farm in Mt. Judea. After they started spraying the field across the street, my Grandson (who has Asthma) began to have problems. My wife has a compromised immune system. So, I moved away and put my house for sale. It's been on the market for two years, I lowered the price twice but unable to sell it. Why does one small business that only provides a handful of minimal jobs get to ruin the environment, pollute the Air, Wells, Waterways and Rivers: lower the house and land values of the area and destroy tourism?
