Subject: C&H Hog Farm General permit ARG59000
Date: Friday, April 17, 2015 11:13:03 AM

I am writing to request that the above mentioned permit modification be denied. Spraying untreated hog waste (sewage) near a community, a school, and anywhere near the Buffalo River watershed should never be allowed. This type of hog waste disposal is not allowed in North Carolina, and we should learn from the mistakes that state made and the terrible health and environmental problems that they have encountered since hog factory farms(CFO) were allowed there . There are so many other reasons this permit should be denied, including the Federal Court finding that the original environmental assessment was flawed and that that process should begin again. Thank you for the opportunity to comment and please deny the C&H Hog Farm permit modification. Thank you, Bill Pettit, POBox 15, Cotter, AR, 72626. Email, troutman08@suddenlink.net. Phone 870-453-1117
