**Subject:** C&H Hog Farm Permit Modification - Please Deny  
**Date:** Tuesday, April 14, 2015 3:33:13 PM

---

Dear ADEQ,

I would like the C & H Hog Farm proposed modification of their Nutrient Management Plan to allow land application of hog wastewater from Waste storage Pond 2 by tanker-wagon **to be denied**.

Without better information about the waste, I don't think it should not be permitted for C & H to use a vac-tanker truck to apply hog wastewater to any of the fields from Pond 2. We do not have adequate information about the amount of Phosphorus, Nitrogen and other nutrients planned for this application and we do not have it about waste that has already been applied to some of the fields.
