PLEASE PRINT LEGIBLY

A registered professional engineer should be present before the pond liner of polyethylene is installed to insure that there are no rocks or pockets of waste embedded in the existing clay liner which could provide a potential weak spot where the liner could fail. This professional should post his report on the ADEC website.

Notice of CH transferring waste
sherry by tanker truck to a
certified application place that is
not specified on CH permitted
places, should be put on your
website should it occur.
