---

Dear Director and Deputy Director,

The mission of ADEQ is to protect, enhance, and restore the Environment of the State of Arkansas.

I am opposed to allowing tanker truck disposal of waste on pond #2 of the C&H Hog Farm. This does not serve your mission.

Furthermore, I am dismayed that such a farm is so close to the Buffalo National River and certainly not protected for 100year floods. There are similar issues that you are aware of on the Illinois River concerning poultry waste. You may be aware that the ecosystem has a finite capacity for absorbing animal waste. I am embarrassed that your department has not properly vetting these issues before awarding the original permit.

Sincerely,  
David Mervis
