Jason,

I just got off the phone with Kartherine, and she mentioned that as of right now if something were to go wrong with the farm in regards to a violation or something, you would be responsible since we have you on the NOI form as the operator. She mentioned that you can change it to C & H Hog farms by writing her an email that you would like it to be changed and then in an instance of an issue or violation C & H hog farms would be held responsible instead.

Give me a call if you have any questions.
Nate

Mr. Pesta—

The Department is in receipt of the Notice of Intent (NOI) and Stormwater Pollution Prevention Plan (SWPPP) for the above-referenced project. During the SWPPP review, it was determined that the SWPPP was incomplete. Please see the attached checklist for the items marked **NO**. An updated SWPPP should be received by the Department no later than **8/09/2012**. For your convenience, below are links to the Construction Stormwater General Permit SWPPP template. You may find it easier to fill out this

template than editing the existing SWPPP document (use of the template is not required, it is provided solely for convenience).

Additionally, I need some information about the ownership of the facility. The NOI has "Jason Henson" as the permittee and Operator Type was marked "Other." Usually, when a permit is to be issued in an individual's name, the Operator Type is "Sole Proprietorship." Please explain.

The NOI states that the permit fee was submitted, but fiscal division has not forwarded a copy of the check. I will let you know once receipt of payment has been confirmed.

Please note that until the SWPPP & NOI have been deemed administratively complete, the two week issuance timeframe does not begin and **construction cannot commence prior to permit issuance.**

If you have any questions, please feel free to contact me for assistance.
