Mr Shafi,

I noticed that my request below from one week ago was posted on the public comment section of the ADEQ website but I have not yet received a response. Can you tell me if my request is under consideration and when I might receive an answer as to whether you will or will not provide for a public hearing? Our supporters, who are widespread, are asking and, with only 2 weeks until the comment period closes, would appreciate timely notice of your decision in order to prepare.

Thank you,  
Gordon Watkins

Considering the controversy and contentiousness surrounding this permit, a public hearing is warranted. Please let me know if my request is approved and, if so, when and where this hearing will be held.
