**Date:** Monday, March 24, 2014 2:04:48 PM

---

I oppose modification of this plan. This entire permit needs to be reopened. This permit was issued without proper public notice and without sufficient scientific study of the effects on the areas water, air, population, and tourism industry. I urge ADEQ add PCEC to reopen the entire permit and cancel the permit as soon as possible. A moratorium is needed to prevent similar occurrences in the future.
