Arkansas Department of Environmental Quality  
Water Division Permits Branch,  
5301 Northshore Drive,  
North Little Rock, Arkansas 72118-5317

**Subject: C & H Hog Farm General Permit ARG590000**

Thank you for the opportunity to comment on the above application, and thank you for making available on the ADEQ website the content of communication between citizens, organizations and the Agency regarding the entire life of this issue.

Friends of the North Fork and White Rivers (FNFWR) is an all-volunteer watershed organization dedicated to the protection and preservation of the Middle Section of the White including its tributaries. The Buffalo National River enters this watershed at Buffalo Point in lower Baxter County.

A review of the work and science to date regarding overall permitting of the hog farm in the Buffalo River Watershed affirms our concern that water quality is at risk as is the very well-being of this National treasure. It is astounding that a measure of the economic contribution of this asset alone stands to be ignored.

Therefore, due to the numerous continuing errors, omissions and unexplained assumptions contained in the documents available for review and especially those enumerated in a letter to your Department from EarthJustice, dated March 9, 2015, Friends urges this modification be denied and the **full** permit be reopened for public review and comment.

Sincerely,

Jane E. Darr

Jane E. Darr, President

Friends of the North Fork and White Rivers

Cc: Friends Board members

*Friends of the North Fork and White Rivers is an Arkansas 501(c)(3) non-profit organization devoted to creating an ongoing dialogue where individuals, groups, and government agencies can work together to conserve, restore and enhance these beautiful rivers.*
