April 14, 2015

To ADEQ

Gentlemen,

Please do not allow any modification to the C and H waste disposal plan at this time.

The entire C and H plan has been found by the courts to be flawed and thus until the re-evaluation is complete it would be inappropriate to allow any changes. The original failure of ADEQ to closely examine the original permit should not be further flawed by allowing any aspect of the permit to be changed.

If C and H cannot work within their original permit then they can elect to cease operations. Voluntarily ceasing operations would be a good outcome for the Buffalo River Watershed and the State of Arkansas.

Joe Golden
Harrison, Arkansas
