Subject: Do not allow hog farm near Buffalo
Date: Tuesday, March 05, 2013 12:11:28 PM

Do not allow hog farm near Buffalo River. The confined animal feeding operation near Big Creek in the Mt. Judea area will destroy our national river. The containment ponds will overflow and contaminate our river. You do not have adequate staffing to ensure that the ponds do not overflow. The tourism money is more than the hog farm will provide. The land application of manure will contaminate groundwater and any other tributary. Please protect our water and stop allowing it to be contaminated. Fresh water is the most important resource on the planet.
