This is a public comment on the recent request to modify the C&H Farm permit. As a citizen of Newton Co. I urge you to withhold approval of this modification until all the current mapping and land ownership errors in the permit are corrected. These errors specifically address where and how waste is to be applied and are directly involved in the current request for modification.

Please consider taking the time to protect the environment for the public even if it inconveniences a business.

Thank you,
Jeanmarie Mako
