**Date:** Thursday, April 16, 2015 2:11:26 PM

---

To whom it may concern:

Please do not allow modifications to the C & H Hog Farm permit for spraying untreated hog waste via tank trucks. C & H poses a health and environmental risk to the Mt. Judea residents and school children as well as to our national treasure, The Buffalo National River.

ADEQ committed a grave error in permitting this hog operation in the first place and it is unconscionable to think of making it easier for them to dispose of untreated waste from their ponds.

My wife and I love to kayak and picnic on the Buffalo River, and we support sustainable local agriculture, as well, but this factory farm so near to our beloved river is not in any way, shape, or form sustainable.

Sincerely,

Joseph P. McShane
