---

This is a request that the above permit be denied. The original NMP needs to have its flaws corrected before a new plan can be correctly designed and implemented. In the face of findings that the area of Big Creek that runs into the Buffalo River is exhibiting at times elevated levels of E. coli and lowered levels of dissolved oxygen, we implore the Department to use extreme caution in issuing any new permits to the C& H Hog Farm. We realize that we do not need to remind you how precious the Buffalo River is.

Respectfully,  
Lloyd & Linda Stith
