---

To Whom It May Concern:

I would like to submit the following comments concerning the proposed changes to C & H Hog Farms' CAFO permit. While I do not believe that the proposed changes to install pond liners and a methane flare system are necessary, I fully support these voluntary changes to further eliminate any possible potential for environmental damage. In fact, it is hard to imagine why any sane person would oppose such additional environmental safeguards except for the cost of installing them, which Cargill has so graciously offered to fund.

Sincerely,  
Mike Freeze
