It's been stated by ADEQ that this permit modification to add liners to the waste holding ponds is because C;H has requested to do this. ADEQ says that the permit did not require this liner installation. Why are C;H doing this? Except C;H knows there is evidence of holding pond leakage, knows this is a feeble attempt to keep their permit. This liner will still not address the fact that soil Phosphorous levels will eventually too high on land applied fields. What then?
