Subject: C&H Hog Farm General Permit ARG590000
Date: Tuesday, April 14, 2015 2:03:47 PM

To Whom It May Concern:

I would like to let my voice be heard about the upcoming meeting in Jasper on the 20th of April.

I am continuing to be concerned about the ongoing need to allow the C&H Hog Farm to modify their permit. There are and continue to be errors, omissions etc. in the NMP without requiring correction and all modifications should be denied until accurate and the correction version be submitted.

No modifications to the permit should be allowed until ongoing mapping and land ownership errors are corrected.

Another significant concern of mine is the spraying of untreated sewage within a community where some residents rely on wells for drinking water, where a school is in close proximity to the spray fields, and where thousands of visitors swim, canoe, and fish,

The Buffalo River areas are rich for the tourist industry which many in that area depend.

Thank you,
