Subject: C & H Hog Farm General Permit ARG590000
Date: Tuesday, April 14, 2015 5:09:12 PM

To staff at ADEQ:

If ADEQ allows the requested modification by C and H Hog Farm for permission to spray **untreated** waste from tank trucks, it will be compounding its gross error in permitting the farm in the first place and will further demonstrate ADEQ's lack of concern for public health in the Mt. Judea community and the ecological health of our treasure, the Buffalo National River where so many people enjoy outdoor recreation. Please no modifications until sound scientific practices observing the health of the community and river are put into place. Tank truck spraying of fields from waste ponds is not acceptable.

Sincerely,

Ruth Weinstein, an avid kayaker and supporter of sustainable, safe agriculture
