RE: AFIN: 51-00164; Permit No.: ARG590001

Dear Mr. Henson:

The 2013 annual report as required by the referenced Concentrated Animal Feeding Operations General Permit was received on January 27, 2014. The annual report stated a total of 630.7 acres available for land application. However, according to a response to an inspection report dated September 20, 2013, land application activities have ceased on Field 5 until a map discrepancy is resolved. Therefore, 605.8 acres is the actual acreage available for land application. In accordance with Department policy, your report has been reviewed and determined to be complete. At this time no additional information is required.

Thank you for your cooperation in this matter. If there are any questions concerning this submittal, please contact Casey Vickerson of my staff at (501) 682-0653 or by email at vickerson@adeq.state.ar.us.

Sincerely,

Katherine A. Yarberry, P.E.
Engineer Supervisor, No Discharge Section
Water Division
