Subject: [BULK] Hog Farm in Buffalo watershed

Ms. Marks

The purpose of this message is to urge and encourage you to stop operations at the hog farm (CH) in Mount Judea. I believe it is within your authority to do so. We cannot fathom that the permit system allowed a CAFO in such a sensitive and economically significant watershed.

If revoking the permit is not an option, I would ask that the nutrient management plan be completely revisited to remove all hog waste from the watershed for disposal at a less sensitive site.

Thank you for your attention and time.

Tim Eubanks
President, Central Chapter Arkansas Canoe Club
