Address: \_\_\_\_\_ State \_\_\_\_\_ Zip: \_\_\_\_\_  
Telephone Number: \_\_\_\_\_

III. PERMITTEE CERTIFICATION

"I certify under penalty of law that all soil disturbing activities have been completed and a uniform (e.g., evenly distributed, without large bare areas) perennial vegetative cover with a density of 70% of the native background vegetation cover for the area has been established on all unpaved areas and areas not covered by permanent structures, or equivalent permanent stabilization measures have been employed, or that all storm water discharges associated with the construction activities from the identified site that are authorized by an NPDES general permit have been eliminated. I understand that by submitting this Notice of Termination that I am no longer authorized to discharge storm water by general permit, and that discharging pollutants in storm water associated with construction activity to waters of the United States is unlawful under the Clean Water Act and the Arkansas Water and Air Pollution Control Act where the discharge is not authorized by an NPDES permit."

RE: Permit #'s ARR10C228, ARR00C394 & ARR000164

Attention: Kim Fuller

Ms. Fuller,

Enclosed you will find three Notices of termination for the permits listed above. On Sept 6<sup>th</sup> I spoke to Caryne Starr at ADEQ concerning the issue. She informed me that we no longer need all three permits and by removing them; it would leave our Individual Industrial Permit 49611; the Hazardous Waste and our Air Permit.

If you find that this is not the case please contact us immediately to resolve the matter. I can be reached at 501-467-3232 Extension 100.

Sincerely,

A handwritten signature in cursive script that reads "Shena Lisenbey".
