RE: NPDES Industrial Stormwater Permit
Waste Management – Tontitown Landfill
Permit Tracking No. ARR000231, AFIN 72-00144

Dear Ms. Taylor:

This is in reference to the submittal by your consultant regarding adding an outfall structure to the stormwater holding pond at your facility.

In accordance with Regulation No. 6.202(C), after review of the submitted information, the Department has determined that a state construction permit is not required. However, if the construction site will disturb in excess of one (1) acre, the permittee must comply with the terms of ARR150000 prior to the start of construction.

If there are further questions, please contact Guy Lester of my staff at (501) 682-0023, or by email at lester@adeq.state.ar.us.
