John Bailey, Permit Branch Manager  
ADEQ, Water Division  
5301 Northshore Drive  
North Little Rock, AR 72118-5317

Dear Mr. Bailey,

Drew Foam in Monticello, Arkansas, IGP permit number ARR000817 respectfully requests the 60-day extension past the July 1 permit effective date to complete the SWPPP revision as described by Mr. Ryan Benefield, P.E., Deputy Director in his presentation at the 2014 AEF Water Regulations Update Seminar. We are requesting the extension due to the delay resulting from the General Permit appeal/stay and late settlement and also because the July 1 due date coincides with the due date for the Toxic Release Inventory Reports making it difficult to meet the Plan revision deadline. Thank you.

Sincerely,

A handwritten signature in black ink that reads "Susan McClendon". The signature is written in a cursive style with a long horizontal line extending to the right.
