Hi Katherine,

We have no problems with this facility at the moment, they report "no discharge" most of the year and their paperwork is submitted in a timely fashion.

Miles—

Does AR0047384 AFIN 70-00473 Anthony Forest Products - Urbana Sawmill have all their DMRs in?

I have an industrial stormwater general permit application for them, and I was checking to see that they didn't have any problems before issuing them coverage.

Thanks,

Katherine,

Thank you for your comments. Please see my response below.

The correct coordinates for Outfall 009 should be Latitude: 33° 09' 28" N Longitude: 92° 26' 55" W. The attached document should show that Anthony Forest Products is in Good Standing in the State of Delaware. The SWPPP located at AFP-Urbana facility is signed by the Plant Manager, Stephen Murphy. Also please note that per Part 2.2 of ARR000000, the SWPPP is not required to be complete. Footnote No. 2 states "The Department understands that the SWPPP is a living document and the version submitted with an initial NOI may have portions that are not finalized.

I hope that this satisfies all of the provided comments.

Thanks,

Amanda—

The Department is in receipt of the Notice of Intent (NOI), permit fee and Stormwater Pollution Prevention Plan (SWPPP) for the above-referenced project.

During the SWPPP review, it was determined that the SWPPP was incomplete. The plan was not signed.

Please either:

- 1) Send a signed signature page; or
- 2) Reply stating a signed copy of the SWPPP will be kept on the facility site.

During the NOI review, it was determined that the coordinates for Outfall 009 are outside the facility boundaries. I believe the minutes on the longitude should be 26, rather than 25, but please review the coordinates for accuracy and let me know how they should be corrected.

Please complete any revisions to the application by **05/24/2012**.

If you have any questions, please call or email me.

Thanks,

Katherine Yarberry, EI
