RE: Recertification Notice of Intent: General Permit ARG250004 for discharge of Non-contact Cooling Water
American Electric Power (AEP), dba Southwestern Electric Power Company (SWEPCO)
John W. Turk, Jr. Power Plant site (Turk) near Fulton, Hempstead County, Arkansas

Dear ADEQ:

On behalf of SWEPCO and Turk, please find enclosed a completed Recertification Notice of Intent (NOI) form and associated disclosure information for purposes of maintaining coverage under General Permit ARG250000 for discharges of Non-contact Cooling Water at the Turk Power Plant construction site. The NOI is being submitted to ADEQ by AEP specifically to maintain the existing permit coverage under the General Permit for a discharge of Non-contact Cooling Water associated with an "ice house" that is in use at the facility.

Please be reminded that the discharges from this system consist only of Non-contact Cooling Water (with no additives) associated with the cooling of the ice-making equipment located in the ice house unit. The source of make-up water for the system is potable water. The ice house produces ice for use by the construction site personnel during the construction of the power plant. The system will ultimately be removed from the site once the construction activities have been completed. Please forward the approval for the enclosed NOI to me at: flmills@aep.com.

Please feel free to contact me at (214) 777-1507 or by e-mail if you have any questions concerning the enclosed documents.

Sincerely,

Franklin L. Mills
