

# ARG (NPDES non-stormwater general permit) Notice of Intent - ARG160000, ARG250000, ARG500000, ARG550000, ARG640000, ARG670000, ARG750000, and ARG790000 Applications for New Permit Coverage

version 1.30

(Submission #: HQ7-H9D0-GN98W, version 4)

## Details

---

**AFIN** 27-00406  
**Reference #** ARG500120  
**Submission ID** HQ7-H9D0-GN98W

## Form Input

---

### Type of Permit Application

#### Permit Type

ARG500000 - Aggregate Facility

#### Are you constructing or installing a new treatment system?

Yes

#### Initial Fee (in dollars)

200

#### Construction Fee

There is a one-time \$500 fee for construction

#### Total Fee due with Application (in dollars)

700

### ARG500000: Specific Information

#### Exclusions

Please note that the following types of discharges are explicitly excluded from ARG500000 coverage:

1. Facilities producing sand for industrial use (as opposed to construction use)
2. Facilities conducting streambed mining as regulated by APC&EC Rule 15.403 or in-stream dredging operations as described by Section 404 of the Clean Water Act.

**I certify that to the best of my knowledge, this facility is not subject to any of the exclusions listed above.**

Yes

#### Other Exclusions

In addition to the above list, waterbody-specific exclusions and/or other exclusions may be applicable.

See the permit for details:

<https://www.adeq.state.ar.us/downloads/WebDatabases/PermitsOnline/NPDES/Permits/ARG500000.pdf>

The Aquaview application may be useful if you wish to check the status of receiving waters for the facility:  
<https://arkansasdeq.maps.arcgis.com/apps/webappviewer/index.html?id=fb5a6aa70fd940cda4c9a3d7bc2fbb15>

### Geological Description of Site

The Smithton fine sandy loam (0-2% slopes) and Warnock fine sandy loam (1-7% slopes) cover the central upland area, while Amy silt loam (0-2% slopes) is on the southern upland. These soil units range from 0-80 inches thick, with topsoil typically 6-8 inches. Overburden and soil horizons vary from 0-5 feet. The white quartz gravel resource, with sand interburden, averages 15 feet thick and is underlain by a brownish-gray clay layer.

### Chemicals used onsite coming into contact with water (if applicable)

NONE PROVIDED

### Site map

Please attach a site map that shows the following:

1. All outfalls discharging water at the site (including outfalls permitted under other NPDES permits),
2. Direction of stormwater flow onsite,
3. Areas of active and inactive mining,
4. Processing areas,
5. Location of potential pollutant sources, and
6. Nearby receiving waters.

### Site Map

Figure 1-6 sealed.pdf - 11/07/2024 09:20 AM

#### Comment

This is an open cut mine that washes sand and gravel without chemicals or sanitary waters.

### Will the facility be using an existing process water pond not previously covered under the ARG500000 general permit, or converting a mine pit into a process water pond?

No, this facility is constructing a new process water pond and I have submitted plans and specifications in the construction section of this application

#### CORRECTION REQUEST (APPROVED)

**Change this to "No".**

There has been some internal discussion that determined that, because the process water pond does not yet exist, this will count as a "No". This will require a Form 1 to be submitted as well.

Created on 3/21/2025 9:38 AM by **Ryan Grandgenett**

#### 1 COMMENT

**james musgrove (james@ehsapex.com) (3/25/2025 6:00 PM)**

Revised plans reviewed by Professional Engineer will be submitted via FedEx to Mr. Grandgenett as per his email and subsequent telephone discussions.

## Permittee Information

### AFIN (Enter if available)

27-00406

#### CORRECTION REQUEST (APPROVED)

**AFIN number should be "27-00406"**

This is the filing number with the Secretary of State. The AFIN number is a number we generate to keep tracking of a company's financials. Normally, this site would not have an AFIN yet. However, because other permits have been submitted for this site, an AFIN has been generated for it.

Created on 11/21/2024 2:17 PM by **Ryan Grandgenett**

#### 1 COMMENT

**james musgrove (james@ehsapex.com) (12/23/2024 2:26 PM)**

Correct AFIN inserted.

### Permittee (Legal Name)

The permittee means any person (an individual, association, partnership, corporation (i.e. LLC or Inc.), municipality, state, or federal agency) who has the primary management and ultimate decision-making responsibility over the operation of a facility or activity.

For individual homeowners, the permittee must be the name of the homeowner or homeowners, e.g. "Jane Doe" or "John and Jane Doe"

For corporations, the permittee legal name must be an EXACT MATCH with the Arkansas Secretary of State (including all punctuation). Below is a link to verify the match:

[Arkansas Secretary of State](#)

## Responsible and Cognizant Official Information

### Cognizant Official (duly authorized representative)

40 CFR 122.22(b) states that all reports required by the permit, or other information requested by the Director, shall be signed by the applicant (or person authorized by the applicant) or by a duly authorized representative of that person. A person is a duly authorized representative only if:

- (1) the authorization is made in writing by the applicant (or person authorized by the applicant);
- (2) the authorization specifies either an individual or a position having responsibility for the overall operation of the regulated facility or activity responsibility, or an individual or position having overall responsibility for environmental matters for the company.

## Cognizant Official Designation

No Cognizant Official - the Responsible Official will sign all reports and other required documents

## Responsible Official

In accordance with 40 CFR 122.22, all NOI shall be signed as follows:

- 1) For a corporation: by a responsible corporate officer. For purposes of this section, a responsible corporate officer means:
  - a. A president, treasurer, or vice-president of the corporation in charge of a principal business function, or any other person who performs similar policy or decision-making functions for the corporation; or
  - b. The manager of one or more manufacturing, production, or operating facilities, provided, the manager is authorized to make management decisions which govern the operation of the regulated facility including having the explicit or implicit duty of making major capital investment recommendations, and initiating and directing other comprehensive measures to ensure long term environmental compliance with environmental laws and regulations; the manager can ensure that the necessary systems are established or actions taken to gather complete and accurate information for permit application requirements; and where authority to sign documents has been assigned or delegated to the manager in accordance with corporate procedures.
- 2) For a partnership or sole proprietorship: by a general partner or the proprietor, respectively;
- 3) For a municipality, State, Federal or other public agency: by either a principal executive or ranking elected official. For purposes of this section, a principal executive officer of a Federal agency includes:
  - a. The chief executive officer of the agency; or
  - b. A senior executive officer having responsibility for the overall operations of a principal geographic unit of the agency.

For individual homeowners seeking coverage under the ARG550000 general permit, the homeowner is the responsible official. For joint ownership, one of the co-owners must sign as the responsible official.

## Disclosure Statement or SEC Forms

Ark. Code Ann. 8-1-106 requires that applicants for any type of permit or transfer of any permit, license, certification or operational authority issued by the DEQ file a Disclosure Statement with their application unless exempt for doing so under Ark. Code Ann. 8-1-106(b)(2). The filing of a Disclosure Statement is mandatory. No application can be considered administratively complete without a completed Disclosure Statement unless that facility is exempt. Publicly traded companies may submit the most recent 10-K and 10-Q filings to the Securities and Exchange Commission (SEC) in lieu of the Disclosure Statement.

[https://www.adeq.state.ar.us/ADEQ\\_Disclosure\\_Statement.pdf](https://www.adeq.state.ar.us/ADEQ_Disclosure_Statement.pdf)

## Construction Forms

DEQ Form 1 is available at the following links:

[pdf version](#)

**Please attach DEQ Form 1 here**

[Figure 1-6 sealed.pdf - 11/07/2024 09:36 AM](#)

**Comment**

This is an open cut mine that washes sand and gravel without chemicals or sanitary waters.

**One set of construction plans and specifications, approved (signed and stamped) by a Professional Engineer (PE) registered in Arkansas, must be submitted as follows:**

- a. The plans must show flow rates in addition to pertinent dimensions so that detention times, overflow rates, and loadings per acre, etc. can be calculated.
- b. Specifications and complete design calculations.
- c. All treated wastewater discharges should have a flow measuring device such as a weir or Parshall flume installed after the final treatment unit. Where there is a significant difference between the flow rates of the raw and treated wastewater, a flow measuring device should be provided both before and after treatment.
- d. The plans and specifications must be final documents. Plans and specifications marked "preliminary", "for review only", or "not for construction" are not acceptable.

**Upload plans, specifications, and design calculations**

[Figure 1-6 sealed.pdf - 11/07/2024 09:36 AM](#)

**Comment**

This is an open cut mine that washes sand and gravel without chemicals or sanitary waters.

If the construction activity will disturb 5 acres or more of land, you must obtain separate coverage under the general permit for stormwater discharges associated with construction activity (ARR150000). A separate application through ePortal is required for the construction stormwater coverage.

# INSTRUCTIONS FOR DISCLOSURE STATEMENT

Arkansas Code Annotated Section 8-1-106 requires that all applicants for the issuance, or transfer of any permit, license, certification, or operational authority issued by the Arkansas Department of Energy and Environment (E&E), Division of Environmental Quality (DEQ) file a disclosure statement with their applications. The filing of a disclosure statement is mandatory. No application can be considered complete without one.

Disclosure statement means a written statement by the applicant that contains:

- The full name and business address of the applicant and all affiliated persons;
- The full name and business address of any legal entity in which the applicant holds a debt or equity interest of at least five percent or that is a parent company or subsidiary of the applicant, and a description of the ongoing organizational relationships as they may impact operations within the state;
- A description of the experience and credentials of the applicant, including any past or present permits, licenses, certifications, or operational authorizations relating to environmental rule;
- A listing and explanation of any civil or criminal legal actions by government agencies involving environmental protection laws or rules against the applicant and affiliated persons in the ten years immediately preceding the filing of the application, including administrative enforcement actions resulting in the imposition of sanctions, permit or license revocations or denials issued by any state or federal authority, actions that have resulted in a finding or a settlement of a violation, and actions that are pending;
- A listing of any federal environmental agency and any other environmental agency outside this state that has or has had regulatory responsibility over the applicant; and
- Any other information the Chief Administrator of the Environment may require that relates to the competency, reliability, or responsibility of the applicant and affiliated persons.

## EXEMPTIONS

The following persons or entities are not required to file a disclosure statement:

- Governmental entities, consisting only of subdivisions or agencies of the federal government, agencies of the state government, counties, municipalities, or duly authorized regional solid waste authorities as defined by § 8-6-702. (This exemption shall not extend to improvement districts or any other subdivision of government which is not specifically instituted by an act of the General Assembly.)
- Applicants for a general permit to be issued by DEQ pursuant to its authority to implement the National Pollutant Discharge Elimination System for storm water discharge.

- If the applicant is a publicly held company required to file periodic reports under the Securities and Exchange Act of 1934 or a wholly owned subsidiary of a publicly held company, the applicant shall not be required to submit a disclosure statement, but shall submit the most recent annual and quarterly reports required by the Securities and Exchange Commission which provide information regarding legal proceedings in which the applicant has been involved. The applicant shall submit such other information as the Chief Administrator may require that relates to the competency, reliability, or responsibility of the applicant and affiliated persons.

The following permits, licenses, certifications, and operational authorizations are also exempt from submitting a disclosure statement:

- Laboratory Accreditations, as defined in A.C.A. § 8-2-201 et. seq.
- Hazardous Waste Treatment, Storage, and Disposal Permit Modifications (Class 1, 2, and 3), as defined in Pollution Control and Ecology Commission (PC&EC) Rule 23;
- Phase 1 Consultants, as defined in PC&EC Rule 32;
- Certifications for Operators of Commercial Hazardous Waste Facilities, as defined in PC&EC Rule 23 § 264.16(f);
- Regulated Storage Tank Contractor or Individual License Renewals as defined in PC&EC Rule 12;
- Certifications for Persons Operating and Maintaining Underground Storage Tank Systems which Contain Regulated Substances, as defined in PC&EC Rule 12.701, et. seq.;
- Individual Homeowners seeking coverage under General Permit ARG5500000; Wastewater Operator Licenses, as defined in PC&EC Rule 3;
- Water Permit Modifications for permits issued under the authority of the Arkansas Water and Air Pollution Control Act (Ark. Code Ann. § 8-4-101, et. seq.);
- Solid Waste Permit Modifications for permits issued under PC&EC Rule 22; Solid Waste Landfill Operator License Renewals, as defined in Rule 27;
- Air Permit Modifications for permits issued under PC&EC Rules 18, 19, and 26; and Asbestos Certification Renewals, as defined in Rule 21.

Deliberate falsification or omission of relevant information from disclosure statements shall be grounds for civil or criminal enforcement action or administrative denial of a permit, license, certification, or operational authorization.

## Instructions for the completion of this document:

- A. Individuals, firms, or other legal entities with no changes to a DEQ Disclosure Statement, complete items I through III and XVI.
- B. Individuals who never submitted a DEQ Disclosure Statement, complete items I through II, IV, V, and XIV through XVI.
- C. Firms or other legal entities who never submitted a DEQ Disclosure Statement, complete items I through III, and IV through XVI.

## Mine Pond Emergency Discharge Structure

Water in the pit will normalize to ground water approximate 7-10' below soil surface <https://cida.usgs.gov/ngwmn/index.jsp>

A 2' high raised Access Road will be built around active mine area

Dredge pit will only take stormwater flow from mining area (17 Acres)

This area will expand a previous mine that has not discharged

Calculations are based on 100yr/24-hour storm event intensity for this area (9 in/hr) <https://hdsc.nws.noaa.gov>

Calculations are based on 98% Runoff coefficient (0.98)

1.5 inch stone will be used for spillway

Mine pit water level will be at least 2' below bottom of Emergency Spill way (normally 7-10')

### Rational Equation: $Q=ciA$

The Rational equation requires the following units:

$Q$  = Peak discharge, cfs

$c$  = Rational method runoff coefficient  $i$  = Rainfall intensity, inch/hour

$A$  = Drainage area, acre

$150 \text{ ft}^3/\text{s (cfs)} = (0.98)(9, \text{ inch/hour})(17 \text{ Acres})$

### Trapezoidal open Channel Cross-Section

$b$ , bottom width of channel (ft)(2')

$y$ , depth of flow (ft)(3')

$B$ , the water surface width(ft)(14')

$l$ , the wetted length of the sloped side;

$a$ , the angle of the sloped side of the channel from the vertical; and

$z$ , the channel side slope expressed as horiz:vert =  $z:1$ . (2':1')

Cross Sectional area flow,  $A$  is  $A=by+zy^2$  ( $A=24 \text{ ft}^2$ )

Wetted perimeter  $P$ , is  $P=b+2y(1+z^2)^{1/2}$  ( $P=15.416$ )

Hydraulic Radius  $R_h=A/P$  (1.56)

### Manning Equation

$Q=1.486/n AR^{2/3}S^{1/2}$

$n=(1.5^{1/6})/44.4$  (for 1.5" stone)  $Q=150 \text{ cfs}$

$Q=150 \text{ cfs}$

**Worst case discharge 150 cfs, Emergency spillway Capacity 200 cfs**
