Has this treatment system been approved by AHD? Yes No

Disclosure Statements:

Arkansas Code Annotated Section 8-1-106 requires that all applicants for the issuance or transfer of any permit, license, certification or operational authority issued by the Arkansas Department of Environmental Quality (ADEQ) file a disclosure statement with their applications. The filing of a disclosure statement is mandatory. No application can be considered complete without one. You must submit a new disclosure statement even if you have one on file with the Department. The form may be obtained from ADEQ web site at: http://www.adeq.state.ar.us/disclosure_stmt.pdf.

VII. CERTIFICATION OF OPERATOR

(Initial) "I certify that, if this facility is a corporation, it is registered with the Secretary of the State of Arkansas."

* JH (Initial) "I certify that the cognizant official designated in this Application is qualified to act as a duly authorized representative under the provisions of 40 CFR 122.22(b). If no cognizant official has been designated, I understand that the Department will accept reports signed only by the Applicant."

JH (Initial) "I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations."

Joshua Prim
1118 Rhodes Chapel Rd.
El Dorado, AR 71730
Permit # 25918116

The plans and specifications for the above captioned project have been received and reviewed. Please be advised that as the owner you are responsible for the following:

1. All costs relating to the operation and maintenance of the system.
2. Meeting all effluent requirements.
3. Financial responsibility for effluent monitoring and sampling by a Certified Maintenance Person.
4. Filing for the National Pollutant Discharge Elimination System (NPDES) General Permit (ARG550000) permit with the Arkansas Department of Environmental Quality before any construction begins.
5. Any changes from the specified design will require a new maintenance contract and a resubmission of the permit.
6. This approval is for an on-site retention scheme for all effluent generated from the specified residence on the permit on 2.20 acres near 1118 Rhodes Chapel Rd. El Dorado, Arkansas in Union County. Any off-site discharge or further subdivision of the property may void this approval. Additional measures to ensure on-site retention of all sewage effluent generated may be required at a later date should the discharge leave the property.

This system must be installed to meet the specifications for the design attached to the construction permit, and installation should not begin until the installer has reviewed these specifications. Health Department approval of this project does not release the owner of any liability resulting from the discharge of sewage effluent.

If you have any questions, please contact the local environmental health specialist at your local health department.

Sincerely

David Wilson, EHS

TO THE OWNER
The permit for construction may be deemed invalid by the local Environmental Health Specialist before the start of construction, if the site and/or soil conditions have changed after approval of this permit, or if the information within this permit is inaccurate or has been found to be misrepresented. Approval for operation does not constitute a guarantee that the system will function properly. The approval states that the system was designed and installed according to the Arkansas Department of Health, Rules and Regulations Pertaining to Onsite Wastewater Systems, unless there are exceptions or deviations noted in the comments. A Permit for Construction is valid for one (1) year from the date of approval. The authorized agent must revalidate a permit more than one (1) year old prior to the start of any construction.

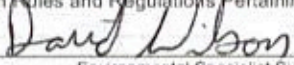

19. Utilization Verification
I hereby attest that item 12, the number of bedrooms (number of persons for commercial) and square footage of the structure that will utilize the designed individual onsite wastewater system in this permit application, is accurate. I have reviewed the permit application and understand the layout, installation, maintenance, operation and expense(s) that may be associated with this system.

Owner/Applicant Signature: SEE ATTACHED EHP19-OPT-A Date: _____

20. I certify that I have conducted the above tests and that the above listed information is in accordance with the latest requirements of the Arkansas Department of Health Rules and Regulations Pertaining to Onsite Wastewater Systems.
