Review Existing Permittee Information

Facility/Contact Information

The permittee means any person (an individual, association, partnership, corporation, municipality, state, or federal agency) who has the primary management and ultimate decision-making responsibility over the operation of a facility or activity.

For the purpose of this permit, the permittee refers to Permittee means any person (any state agency, municipality, governmental subdivision of the state or the United States, public or private corporation, individual, partnership, association, or other entity) who has the primary management and decision-making responsibility over a permitted operation, facility, or activity. The permittee is responsible for ensuring compliance with all applicable environmental regulations and conditions. The permittee is the entity named as such on an individual permit or the entity covered by a general permit.

If the permittee is a corporation, the permittee legal name has to be an identical match with the Arkansas Secretary of State. Below is a link to verify the legal name:

Is the above outfall information correct?

Yes

Conditional Monitoring Requirements

Instructions

Please check if our current information on file for this permit regarding water source, usage of aluminum-based coagulants in the treatment process, and usage of chlorination is correct. If any of the items is incorrect, please select "No" for the question at the end of this section.

Facility uses groundwater as a water source

Yes

Facility uses aluminum-based coagulants in the treatment process

Yes

Facility uses chlorinated water for filter backwash, AND the treatment pond(s) retention time is less than 24 hours

Yes

Is the above information about water source, aluminum-based coagulant usage, and chlorination/pond(s) retention time correct?

Yes

Monitoring Frequency Reductions

Please refer to Part 3.4 of the permit for more information.

[Click here to view Part 3.4 of the Permit](#)

Does the facility have reduced monitoring frequency requirements for Aluminum, Iron, Manganese, TRC, or TSS?

Yes

Facility/Contact info Corrections

Instructions

Include any necessary corrections in this form. If the permittee legal name or facility name needs to be corrected, a permit transfer form must be attached to this submission.

Monitoring Frequency Reductions

Instructions

For Aluminum, Iron, Manganese, or TRC:

The monitoring frequency may be reduced to once/year if the requirements of Part 3.4.1 of the permit are met.

For TSS for permittees subject to Part 2.1 (Outfall Type 101):

The monitoring frequency may be reduced to once/6 months if the requirements of Part 3.4.2 of the permit are met.

For TSS for permittees subject to Part 2.2 (Outfall Type 102) or Part 2.3 (Outfall Type 103):

The monitoring frequency may be reduced to once/quarter if the requirements of Part 3.4.3 of the permit are met.

Please select all existing monitoring frequency reductions for the facility:

Aluminum

Iron

Manganese

Total Residual Chlorine (TRC)

Total Suspended Solids (TSS)

ALUMINUM: Would you like to request continuation of the current reduced monitoring frequency requirements for this parameter?

Yes

ALUMINUM

Please note the permittee must meet the requirements of Part 3.4.1 to qualify for this continuation. DEQ will review the permittee's most recent two (2) years of reported data for Aluminum to determine compliance with the permit limit.

IRON: Would you like to request continuation of the current reduced monitoring frequency requirements for this parameter?

Yes

IRON

Please note the permittee must meet the requirements of Part 3.4.1 to qualify for this continuation. DEQ will review the permittee's most recent two (2) years of reported data for Iron to determine compliance with the permit limit.

MANGANESE: Would you like to request continuation of the current reduced monitoring frequency requirements for this parameter?

Yes

MANGANESE

Please note the permittee must meet the requirements of Part 3.4.1 to qualify for this continuation. DEQ will review the permittee's most recent two (2) years of reported data for Manganese to determine compliance with the permit limit.

TOTAL RESIDUAL CHLORINE (TRC): Would you like to request continuation of the current reduced monitoring frequency requirements for this parameter?

Yes

TOTAL RESIDUAL CHLORINE (TRC)

Please note the permittee must meet the requirements of Part 3.4.1 to qualify for this continuation. DEQ will review the permittee's most recent two (2) years of reported data for TRC to determine compliance with the permit limit.

TOTAL SUSPENDED SOLIDS (TSS): Would you like to request continuation of the current reduced monitoring frequency requirements for this parameter?

Yes

TOTAL SUSPENDED SOLIDS (TSS)

Please note the permittee must meet the requirements of Part 3.4.2 (for Outfall Type 101, i.e. a discharge flow of less than or equal to 0.5 MGD) or Part 3.4.3 (for Outfall Types 102 or 103, i.e. a discharge flow greater than 0.5 MGD) to qualify for this continuation. DEQ will review the permittee's most recent two (2) years of reported data for TSS to determine compliance with the permit limit.

Does the facility have multiple outfalls with different monitoring frequency reductions (or requested reductions)?

No

Disclosure Statement**Declaration of No Changes**

This facility is owned by a municipality or county, or is a public water authority.
