Subject: RE: Hwy 264 - Burdine Lane permit application

Amanda,

I apologize for the multiple emails, but I have a few questions to assure permit compliance that aren't included on the NOI (yet):

1. Does the discharge contain only water used for hydrostatic testing? (1.2.2.9) Yes
2. Is there less than 0.1 mg/L of chlorine in the discharge? (1.2.1.12) The water will come from a municipal source so I would need to see what the source adds to their water to determine the chlorine levels. We would not be adding any.
3. Are there substances in the discharge not monitored by the effluent limitations? (1.2.2.2) No
4. Are there any compressor lubricants with PCBs used? (1.2.2.8) No

Please contact me with any questions?

Regards,

Alex Kreps

A retention basin will be built with plastic sheeting and hay bales. As the water comes out of the pipe, it will flow into the basin, then flow over the sides. Flow from the pipe will be controlled with a valve to ensure a slow flow rate. Straw wattles will be placed at intervals below the basin to further reduce velocity and control any sediment or erosion. The \$400 check was for the STAA fee. The disclosure statement is attached.

Also, there was another check sent in with the application for \$400.00. Could you please tell me what that is for?

Regards,

Alex Kreps

Amanda,

Could you please provide a digital copy of your most recent Disclosure Statement for SourceGas Arkansas, Inc.? Also, what BMPs are in place to dissipate the velocity and ultimately reduce erosion?

Please contact me with any questions.

Regards,

Public Notice Required General Permit Route Sheet

Planning OK

Facility Name		Hwy 264- Burdine Lane	
Permit Number		ARG 67084	AFIN NO.* 04-2278
