Permit Information

Recertification Instruction

Please review all fields carefully for typos or inaccurate information. If the information in the corresponding field is incorrect, please update the corresponding field with the correct information by typing over the existing information.

If the Permittee (Legal Name) changes, you will need to also submit a permit transfer form.

The update SWMP must be submitted in accordance with the permit.

Permittee (Legal Name)

The permittee means any person (an individual, association, partnership, corporation, municipality, state, or federal agency) who has the primary management and ultimate decision-making responsibility over the operation of a facility or activity.

2024 SWMP - City of Pea Ridge.pdf - 06/27/2024 11:46 AM

Comment

The City of Pea Ridge is currently working to create their own storm sewer GIS mapping system to supersede the map attached. This GIS map will include storm sewer system data documented and collected by the City on past developments, and will continue to be updated as new developments are completed. This is one of their highest priority goals for this 5-year term.
